ERRATUM

In our 4th Edition on the Launching of the Seminar and Poster day in the Faculty of Biosciences, we inadvertently referred to **Dr. Felix Charles Mills-Robertson**, chairman of the committee as **Professor Charles Robertson**. The error is regretted.

SIMULATION LABORATORY

The Simulation Laboratory was one of the new facilities in the College of Science commissioned by the Vice Chancellor on the 25th of October, 2017. It is to be used by the postgraduate students to simulate their research, results findings and experiments. There are various simulation software programs installed on high-end machines with several modules to facilitate research. It has a file server for data storage and a dedicated wireless access points for fast and reliable internet. The lab has five cubicles, an office, class room and a conference room.
